

With decades of sales experience at OEMs, large box stores and quaint boutiques, in the bicycle and outdoor industry, we were ready to work for ourselves. Somewhere between Florence, Oregon and Bar Harbor, Maine - on our epic 5000 mile bicycle journey, it was decided that we would create a business that we could truly enjoy.

It takes a team to succeed. We have an awesome support system of people and resources that helped create Vertical Street, a direct to garment printing service for small businesses, bands, events, teams, and artists. Need uniforms for a soccer team? Shirts for cafe servers? A picture of your dog, your band album cover, your tap room logo? We do that.

Using the Freejet Omniprint 330TX Plus, Vertical Street can deliver the highest quality graphic designs and colors prints - directly onto shirts, aprons, totes, socks, uniforms jerseys, or whatever your company needs. We pride ourselves on customer centric service, high quality products, quick turn around, and we back up our work with a 100% satisfaction guarantee.

We're not the biggest, we're the bestest.
